Summary

I am a proactive B.Tech (ECE) student with a strong foundation in web development, adept at crafting responsive websites and seamless user experiences using technologies like HTML, CSS, JavaScript, ReactJS, and NodeJS. My passion lies in translating ideas into functional designs, and I am eager to contribute to impactful projects through this internship opportunity.

Education

Manakula Vinayagar Institute of Technology

B.Tech - Electronics and Communication Engineering - CGPA: 8.0

Oct 2022 – May 2026

Madagadipet, Puducherry

Certifications

- MERN Stack
- Java Programming
- MongoDB
- 3d Blender Design
- React Native
- Git version control

Experience

Rhradel Startup

July 2024 – Present

Web Development Intern

Kalapet, Puducherry

- Developed and maintained dynamic web applications using ReactJS, NodeJS, and MongoDB.
- Collaborated with a cross-functional team to design user-friendly interfaces for MBBS exam preparation tools.
- Optimized website performance, reducing load times by 25%.
- Integrated Firebase for real-time database management and authentication.

Technohacks

April 2024 – June 2024

Web Development Intern

Remote

- Developed responsive and interactive web pages using HTML, CSS, and JavaScript to enhance user experience.
- Built and integrated RESTful APIs with NodeJS and MongoDB for backend functionality.
- Created a project management dashboard using ReactJS for real-time task tracking and updates.
- Deployed web applications using Firebase Hosting for scalable and efficient solutions.

Projects

Website for MBBS Students (DNB Exam Preparation) | HTML, CSS, JavaScript, ReactJS, Firebase

Ongoing

- Developing a website to assist MBBS students in preparing for the DNB exam.
- Using ReactJS for the frontend and NodeJS with Firebase for backend services such as user authentication and data management.

Low-Cost Patient Transfer System | Mechanical Design, Mild Steel, Foam, Patient Safety Features

September 2024

- Designed a low-cost system to transfer patients from stretchers to ICU or normal beds.
- Incorporated a bed plate system, customizable foam for comfort, and side barriers for patient safety, all with mild steel to balance strength and lightweight design.

Technical Skills

Languages: Java, HTML/CSS, JavaScript

Developer Tools: VS Code, Git Control version, Eclipse, Google Cloud Platform, Android Studio

Technologies: MongoDB, Git, GitHub.

Leadership / Extracurricular

Web Development Workshop

August 2023 – Present

ElectroMilez

MVIT

- Organized and conducted web development workshops for junior students, focusing on technologies like HTML, CSS, JavaScript, and ReactJS.
- Guided students in building practical web applications, providing hands-on learning experiences and troubleshooting support.
- Fostered a collaborative learning environment, encouraging teamwork and skill development among participants.
